| Contacts   |  |  |
| Number of auxiliary contacts (change-over contacts)                              | 0  |  |
| Number of auxiliary contacts (normally closed contacts)                          | 1  |  |
| Number of auxiliary contacts (normally open contacts)                            | 1  |  |
| Number of contacts (normally closed contacts)                                    | 1  |  |
| Number of contacts (normally open contacts)                                      | 1  |  |
| Design verification  |  |  |
| Equipment heat dissipation, current-dependent Pvid                               | 5.7 W  |  |
| Heat dissipation capacity Pdiss  | 0 W  |  |
| Heat dissipation per pole, current-dependent Pvid                                | 1.9 W  |  |
| Rated operational current for specified heat dissipation (In)                    | 2.4 A  |  |
| Static heat dissipation, non-current-dependent Pvs                               | 0 W  |  |
| 10.2.2 Corrosion resistance  | Meets the product standard's requirements.   |  |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat       | Meets the product standard's requirements.   |  |
| 10.2.3.3 Resist. of insul. mat. to abnormal heat/fire by internal elect. effects | Meets the product standard's requirements.   |  |
| 10.2.4 Resistance to ultra-violet (UV) radiation                                 | Meets the product standard's requirements.   |  |
| 10.2.5 Lifting   | Does not apply, since the entire switchgear needs to be evaluated.   |  |
| 10.2.6 Mechanical impact   | Does not apply, since the entire switchgear needs to be evaluated.   |  |
| 10.2.7 Inscriptions  | Meets the product standard's requirements.   |  |
| 10.3 Degree of protection of assemblies  | Does not apply, since the entire switchgear needs to be evaluated.   |  |

| 10.4 Clearances and creepage distances                 | Meets the product standard's requirements.   |
|--|--|
| 10.5 Protection against electric shock                 | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.6 Incorporation of switching devices and components | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections      | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors               | Is the panel builder's responsibility.   |
| 10.9.2 Power-frequency electric strength               | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage                       | Is the panel builder's responsibility.   |
| 10.10 Temperature rise                                 | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating                             | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.12 Electromagnetic compatibility                    | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.13 Mechanical function                              | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |

## **Technical data ETIM 8.0**

Low-voltage industrial components (EG000017) / Thermal overload relay (EC000106)

Electric engineering, automation, process control engineering / Low-voltage switch technology / Overload protection device / Thermal overload relay (ecl@ss10.0.1-27-37-15-01 [AKF075014])

| Adjustable current range                                | A | 1.6 - 2.4         |
|---|---|-------------------|
| Max. rated operation voltage Ue                         | V | 690               |
| Mounting method   |   | Direct attachment |
| Type of electrical connection of main circuit           |   | Screw connection  |
| Number of auxiliary contacts as normally closed contact |   | 1                 |
| Number of auxiliary contacts as normally open contact   |   | 1                 |
